MEMORANDUM FOR: Inspector General

FROM: Harry E. Fitzwater
                  Deputy Director for Administration

SUBJECT: Inspector General's Report on the
                  Office of Security Recommendation #21   25X1

INSPECTOR GENERAL

83-202

     1. A recent review of our correspondence reveals that we have no record that a formal, complete response has ever been furnished with regard to Recommendation #21 of the Inspector General's report on the Office of Security dated September 1981. I regret this oversight; forwarded herewith is a copy of the Agency computer security program which was prepared by the Office of Security's Information Systems Security Group. The program was prepared in collaboration with representatives from the Offices of Communications, Data Processing, Information Services, and the former Information Handling Systems Architect staff. As you will note, the program outlines our general long-range goals in the computer security area. We are currently preparing a series of briefings for Agency management which provide more specific, near-term objectives pertaining to this program.   25X1

     2. Please advise if you would like any additional information on this subject.   25X1
